Getting into the Flow

Step away from the hustle-and-bustle of the metropolis and leave all the cacophonies on the urban landscape behind you. As conformity to the concrete jungle becomes too overwhelming to bear, it's time to shed all masquerades, slide into your private sanctuary and luxuriate in the simple comfort of being in your own skin again.

Setting the stage for a smooth slide into sublimity, Rigel's PEBBLE, DOUX and IMPRESSIONS Series not only exude an elegant ambience to ease your mind into this state of Flow, each of our latest themed bathroom collections has also been thoughtfully designed to flow with the soulful vibes in a living space, for we understand that interior decor is always a reflection of the creator's unique personality.

So don't just go with the flow of luxury and indulgence. Get into the Flow of rejuvenating and re-empowering the spirit. Reconnect with the beauty that lies deep within you and the part you can play for the greater environment from the most private enclave, so hope will always spring eternal.

Making Waves from Private Oases

OUR SOURCE OF INSPIRATION

Originating from resource-scarce Singapore in 1991, Rigel has got into the flow of sustainability even before the green movement took the world by storm. We understand that every drop makes an ocean, and to fulfill the greater goal of saving the environment, we need to start small, from the most overused yet underappreciated enclave - the restroom.

By pioneering water-conservation and energy-efficient features for answering nature's call, we have enabled urbanites to get into the flow of saving valuable natural resources every day in restrooms awash with a sublime ambience.

SHAPING LUSH OASES

Specially designed as a lush and tranquil oasis on the bustling Singapore cityscape, Rigel's flagship showroom, nestled in our corporate headquarters, exemplifies the elegant sanctuaries that eco- and style-conscious homeowners can shape in their abodes, while the section dedicated to our LED Hydro Power products will certainly inspire hoteliers to create sustainably sleek bathrooms and show their edge.

With more showrooms spread across Malaysia, Indonesia, Sri Lanka and Chile, this experiential platform has brought forth a steady stream of new bathroom ideas for LOHAS enthusiasts beyond our shores.

SUSTAINABILITY ASSURED

Eco-loving folks will be glad to know that most of Rigel's green restroom products have met the highest requirements of the Singapore Public Utilities Board's Friends of Water Scheme and Water Efficiency Labelling Scheme. And besides being accorded international certifications such as ISO 9001:2008 and TUV SUD, we have also been certified by the Singapore Building and Construction Authority's Green Mark Scheme, the Singapore Green Building Council's Green Label Scheme, as well as the United States Green Building Council's Leadership in Energy and Environmental Design (LEED) system.

THE NEXT LAP

Pioneering the new wave of renewable energy technology, Rigel will continue to shower you with the most cutting-edge bathroom experience that beckons with the beauty of great sensitivity to the environment.

As our PEBBLE, DOUX and IMPRESSIONS Series show, a thoughtfully-designed bathroom will always flow with the vibes of sustainability in style.

By riding on our forte of creating lush restroom oases, we hope to pave the way towards a greener future and create a more livable environment for generations to come.

Singapore Good Design Mark Award 2014

Jazz Up Your Bathroom with Award-Winning Designs

“Design is about the betterment of our lives poetically, aesthetically, experientially, sensorially and emotionally.” - *Karim Rashid*

We couldn't agree more with Karim Rashid, renowned industrial designer and interior architect. And by fusing these various facets of life for a more holistic experience, Rigel has won the inaugural Singapore Good Design Mark Award 2014 for four of our bathroom product designs.

We are proud to introduce these award-winning products, which have been developed with our proprietary technology and are poised to jazz up any residential or hotel bathroom. Get into the flow of sustainability and comfort as our designs will always promise the best of both worlds.

LED HydroPower Basin Mixer

Featured in our IMPRESSIONS Series, Rigel's LED HydroPower Basin Mixer bathes your private sanctuary in a soothing ambient glow while running on its own energy as the LED lights are illuminated by state-of-the-art HydroPower technology.

W2-R-JTL9100HG

LED HydroPower Rain Shower Head

Rigel's innovative LED HydroPower Rain Shower Head releases cascading jets of water aglow with temperature-indicating hues self-powered by the energy of water flow, so user can luxuriate in a spa-like atmosphere of cool relaxation or luxuriant warmth without needing to switch on the main bathroom lights.

RL-SHL990HG

Open Rim Water Closet

Designed with the primary aim to make toilet-cleaning more effortless, Rigel's Open Rim Water Closet features an easy-to-brush rim design and anti-bacterial surface treatment. With bathroom maintenance minimised and hygiene maximised, it's no sweat enjoying an immaculate bathroom experience.

RL-WH12000BP

PEBBLE Series

Finding Peace in a Down-to-Earth Retreat

Modelled after this calming element of Nature, Rigel's PEBBLE Series aims to rejuvenate the spirit with that sense of simple serenity that has been long forgotten by many.

Your Rustic Paradise, Rediscovered

With water closets, bidets, basins and bathtubs in perfectly spherical, pebble-like shapes, Rigel's PEBBLE Series is the most elegant reflection of how many of us have come full circle in our pursuit of happiness -- ultimately, it is the simple Zen-like pleasure of enjoying a moment to the fullest, against a serene natural backdrop, that gives user the greatest delight.

“Eventually, everything connects -- people, ideas, objects. The quality of the connections is the key to quality per se.”

So said award-winning American designer Charles Eames. Indeed, the concept of PEBBLE Series is made to flow with our end users' sassy way of life. By streamlining design blueprint, we have incorporated the pebble shape in our full array of products to fit naturally and seamlessly in any bathroom enclave without looking bulky, obtrusive or protruding.

Naturally Neat, Comfortably Clean

Designed for bathrooms with a vast expanse of space, PEBBLE Series is just like an open landscape where user can luxuriate in the light and clean touch.

Whether it is our twin collection of wall-hung WC and bidet that always packs a spick and span look despite the ravages of time, or the one-piece WC with a neat, clean-cut silhouette inspired by streamlined wood grains, our spotless sanitary ware, enhanced by anti-bacteria coating, is set to take the pride of place in the most pristine sanctuary.

Sitting Pretty for Nature's Call

It may seem as a surprise that we can save the environment from the most understated bathroom enclave, but as the saying goes, every drop makes an ocean.

Indeed, with 3.5 litres of water cleaning up just as well as 4.5 litres of water when the full-flush button is activated, as well as additional 30% water and cost savings for half-flush, Rigel's Dual Flush Mechanism in our WCs, which are 25% more water-efficient than their contemporaries, has made it possible for LOHAS enthusiasts to get into the flow of protecting valuable natural resources from the comfort of their private enclaves every day.

Rustic Reminiscences

With our wall-mounted or desk-mounted basin mixers specially selected to match the types of basins used, there is a coordinated look that fits as nicely as best pals do. The contours are soft and gentle, setting the stage to guide us down memory lane and soak in the right ambience for an idyllic escapade.

Making Waves in Water Conservation

In a perfect fusion of style and substance, Rigel's sleek basin mixers also come equipped with a Constant Flow Regulator which can control the water flow rate from 2 to 8 litres per minute, so you can enjoy a steady stream of water and cost savings of up to 80%.

So tap on our sustainable technology for greener, smarter living and enjoy these perks close at hand.

Pebbles Down Under

Making it a point to incorporate the signature pebble shape into the undercounter basin as well, we have overcome the design challenge by working our ways around the contours near the basin mixer.

With both comfort and aesthetics assured, Rigel creates spherical silhouettes flowing throughout the bathroom from every angle that are sure to please those desiring an impeccably synchronised look and feel.

Bathed in Tranquillity

When it is time to step away from the hustle and bustle of the metropolis and wash away the urban grime after a long day, it is always the honest-to-goodness elements of nature that make us whole again.

With the complete array of rain shower head, hand shower set and shower mixer, any wearied urbanite will emerge refreshed after bathing in the naturally tranquil, soothing and wholesome pleasures offered by Rigel's PEBBLE Series.

Happiness -- It Comes So Naturally

While the rustic decor theme has made quite a splash in interior design, the appeal is not just about bringing nature into the hearth; rather, the joy lies in getting closer to nature at heart.

Rigel's PEBBLE Series sets the tone for your rustic paradise so you user can be submerged in happiness easily and naturally.

Paradise on a Pedestal

More than just washing away the day's fatigue, Rigel's PEBBLE Series standalone bathtub also stands out as a work of art in its own right.

DOUX Series

Making Waves in Undulating Elegance

If our thoughts are made to assume a shape, they should be in undulating wave-like motions, with one reflection naturally ebbing and flowing into another.

And there is no better place to experience these smooth streams of thoughts and such metaphysical elegance than the bathroom -- your private haven away from all the distractions in the metropolis.

Literally meaning "soft" in French, Rigel's DOUX Series elegantly unravels an oasis of seamless harmony so you can get into the Flow and be in your element again.

Graceful Horizons, Re-imagined

Imagine a world hidden in the deepest recesses of your soul where there are infinite horizons waiting to be discovered, possibilities that are as limitless as your imagination and dreams that stretch as far as the eye can see.

Rigel's DOUX Series literally brings such a world to life. With wave-like, seamless silhouettes sliding around our entire suite of bathroom products, the stage is gracefully set for you to glide into the flow.

Seamless Strength

Softness doesn't mean meekness, as the one-piece WC in our DOUX Series would show. Underneath its smooth, seamless facade is supercharged strength that packs a punch.

True to Rigel's green values of minimising water use and maximising hygiene, the gushing jets of water, which are evenly dispersed with every flush, can surge forth and get rid of all sediments in a flash – just like the strong and smooth-flowing streams in nature.

Pure Reflections

Away from the urban mish-mash, the bathroom is a sanctuary flowing with only the purity of thoughts. And the WCs in our DOUX Series, which are always aglow with a smooth and spotless luster, literally reflect that. With the use of more resilient and lasting urea-formaldehyde material, our WCs will continue to look flawless through the years, like people in their element who will never be affected by the ravages of time.

Without nooks or crannies for bacteria growth, the open rim feature of this WC makes for a bathroom that is seamlessly spotless and elegantly clean from the inside out.

A full-page photograph of a sunset over the ocean. The sky is a mix of soft pinks, oranges, and yellows, with the sun partially obscured by dark, silhouetted clouds on the horizon. The water below is a calm, light blue-grey color, reflecting the soft light of the sky. The overall mood is peaceful and contemplative.

“In a state of grace, the soul is like a well of limpid water, from which flows only streams of clearest crystal.”

- Saint Teresa of Avila

Comfort Elegance

Perched ever so gracefully, the basins in Rigel's DOUX Series are a picture of poised elegance and comfort, as they have been ergonomically designed to prevent splashing.

Rigel's DOUX Series, featuring ubiquitous wave-like contours, is set to weave the waves of poised elegance into every corner of the bathroom.

Making a Splash in Clean Comfort

Spreading out over 600mm, every wash basin in Rigel's DOUX Series has been thoughtfully designed to be 100 to 200mm wider than other models in the market. Coupled with elegantly curved contours, all water is contained within the wide space and spilling is effectively kept at bay.

In Our Element

With a plethora of bathroom designs confronting our senses today, it's so easy to forget that simple, common element weaving through our personal sanctuary and refreshing our spirits -- water.

Designed to let the mind flow with this element that has made us whole, DOUX Series doesn't just evoke visual reconnection through wave-like contours, the wide spread of water-saving features, which Rigel has become well-known for, has also enabled users to get into the flow of conserving Nature's valuable resource every day.

Slide into your personal seascape and let infinite horizons unveil. With the curves and hues of the showerhead and bathtub specially designed to create a seamless fit, emulating the shapes of smooth waves, you won't even realise when reality has ebbed away and forgotten dreams flow into your streams of consciousness again.

Showing Your Edge with a Sleek Statement

Like sassy individuals who live with great poise even in private, Rigel's IMPRESSIONS Series is dedicated to those who are not afraid to make a statement, show their edge and express who they really are.

Whether it's in a home beckoning with the raw appeal of monochromatic decor or a hotel room with an edgy vibe, the most private enclave can now be shaped into an avant garde work of art, inspiring the senses and shedding light on the sleek individuality of the people using it.

So make an impression as you get into the groove of your personality again.

IMPRESSIONS Series

Artistic Inspirations, Reignited

Bringing a touch of art into the private bathroom enclave is really about easing our mind into the zone, away from the trifles in life, so we can reconnect with our muse, express our character and be inspired by the potential that lies deep within us.

Sometimes, it even means taking an unconventional approach to uncover new perspectives, as what the impressionist artists of the 19th century have done, through light, movement and unusual visual angles.

Inspired by this art form, Rigel's IMPRESSIONS Series similarly displays the flow experience in a sleek new light. As bathroom fixtures are outlined in edgy angles and the range of LED HydroPower products bathes the space in an eco-chic glow, the stage is set for your next bright idea to throb to mind during those private moments.

The Perfect Throne

Extolled by the intelligentsia, art has always been placed on a pedestal through the ages of time, but at the very core, art should be relatable and not out-of-reach.

Indeed, anything can be a work of art if it inspires and reflects the pursuit of perfection, like the care and dedication that has gone into creating IMPRESSIONS Series.

Overcoming manufacturing constraints, Rigel has designed sanitary ware with straight edges that fit sleekly with contemporary decor, while not compromising comfort as the angles are soft and smooth.

Shedding Light on Sleek, Sustainable Aesthetics

Taking a cue from impressionist artists who were the game-changers of the art scene back in the 19th century, Rigel has blazed a trail in bathroom aesthetics in our way.

Reminiscent of a touch-screen smart phone, the sleek concealed cistern, illuminated by LED lights which are driven by our proprietary HydroPower Generator, casts an ambient glow in the bathroom without relying on external electricity.

With minimalist designs shedding light on maximum energy efficiency, it's time to appreciate the adage "less is more" in a whole new light.

Living and Creating on the Edge

The source of inspiration for many creative pursuits, impressionism may have become a well-established, time-honoured art form today, but back then, it was derided as too radical, unconventional and edgy by the mainstream art community.

Yet to Rigel, this out-of-the-box spirit fits our philosophy to a T. Inspired by impressionist artists who eschewed over-emphasis on details and chose to fuse the subject into the background to create a realistic snapshot of the moment, the IMPRESSIONS Series similarly presents designs that blend seamlessly into the environment, creating a holistic canvas for appreciating sleek bathroom aesthetics from various angles.

So if you are a hotelier hoping to show your edge with innovative bathroom designs, this is the most avant garde statement you can make to cast a lasting impression.

A Spark of Innovation at the Fingertips

Throb to the vibes of cutting-edge hydro power technology right in the sleek comfort of your bathroom. By tapping on the energy of water flow to ignite the glow on our LED HydroPower Basin Mixer, we have given sassy urbanites the perks of energy-efficient living right at the fingertips.

As the LED lights also beam with a spectrum of hues from piping hot red to cool blue, reflecting changes in water temperatures as the lever is tilted from the left to the right, the bathroom is instantly transformed into an impressionist work of art with the changing qualities of light casting reveries on different moments and moods.

Let those Creative
Juices Flow

R-MXT817940
Bath/shower system
265 x 520 x 1340mm

Although they are more than two centuries apart, contemporary decor has much in common with impressionism. Instead of carefully constructed art, it's about breaking free of all inhibitions, expressing our muse and unleashing creativity spontaneously.

With the shower set projecting a modern, edgy mien of effortless bathroom, a private refuge away from the structural confinements of the urban jungle, has become a sleek canvas to let those creative juices flow freely again.

1700 x 750 x 470mm

In a society where conformity to social expectations is the norm, Rigel's IMPRESSIONS Series celebrates the self-assured individuality of those who are not afraid of taking the plunge and showing their edge, for we understand that there is nothing more delightful than throwing convention overboard to rediscover possibilities, reawaken dreams and reconnect with the well of inspirations surging from within the soul.

RL-SHL990HG
Led HydroPower rain shower head
257 x 257 x 31mm

Seamless Blend of Aesthetics, Functionality and Energy-Efficient

LED SERIES

- Colour-changing LEDs communicate temperature to the user, preventing hot or cold water shocks and removes temperature-guessing which can waste water.
- Hydro-electric generator makes unit self-powering to save electricity, saving the environment and saving the user money.
- The vibrant LED light also creates an ambience in the bathroom to enhance the shower experience.
- Non-reliance on the power grid also makes the unit safer to operate in the bathroom.
